Welcome to your guide to great value

We have compiled the Argos Superstore catalogue with you in mind, to offer you a great way of shopping for a huge range of quality products, at prices you will find hard to beat.

This Superstore catalogue contains all the products which are available from our Traditional Argos stores, plus an additional 2600 lines which are exclusive to Superstores.
To make it easier for you to find what you want, we have now combined our Traditional and Superstore ranges together, so you can see the full range Argos has to offer.

Products marked by these symbols are exclusive to our Superstores, and are not available from Traditional Argos stores.
Please see the back of the catalogue for your nearest Argos Superstore.

How to shop

Shopping is simple:-

1 Write the catalogue number and the quantity of the goods you require on a selection form (there are some included in this catalogue as well as in-store).

2 Take the form to a service point.

3 Whilst you are paying, your goods will be brought to the collection counter ready for you to collect.

Some of our larger items can also be ordered by telephone and delivered to your door, please see page 3 for details.

Ways to pay

You can pay for your purchase with cash or any one of the credit or debit cards shown.

You can also pay by redeeming your Premier Points (see page 4)

You can also pay by cheque and, if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status, you may also need additional identification).

Overseas visitors may qualify for **Tax Free shopping**, saving on the cost of your purchase. Please ask in-store for details.

Up to £1,000 Instant credit*

Please ask in-store for details.
*Subject to status. Available to most adults.
Argos is a licensed credit broker.

Argos personal account

There's now more than ever to choose from at Argos. With our **Personal Account** you can afford what you want now, and then spread your payments over time. Please ask in-store for details.
APR 29.8%† (subject to variation).
†When payment is made by Direct Debit.
A written quotation is available on request.

Delivery Services

To make shopping even easier, Argos offers two delivery services

Free home delivery service

- **Free delivery anywhere in Great Britain (including Northern Ireland).**
- **Delivery normally within 14 days.**

For your convenience, items which are too large or heavy to stock in our stores, will be delivered direct to your home free of charge.

These items are marked by the red lorry symbol and are not available for collection from any of our stores.

As well as being able to order any Argos Direct item at the Customer Services area in our stores, you can also phone our ARGOS DIRECT FREE Lineline ordering number. You can call 24 hours a day, 7 days a week, giving your order and credit card details.

Order in-store or order by phone 0800 555899

Once you place an order, we will contact you to arrange delivery. Delivery will normally be within 14 days, unless otherwise indicated in the item description or at time of ordering.

Please note:- The 0800 Lineline number can only be used for placing orders for items marked with the red lorry symbol. When ordering you will be given an alternative number for any other queries.

Our free home delivery on selected computers also includes in-home set up. See page 147 for details.

Free home delivery on selected computers

Superstore delivery service

- **Deliveries anywhere within 20 miles of any Argos Superstore.**
- **Order by telephone or in-store.**
- **Service is available on any catalogue items, except those delivered free by Argos Direct.**
- **One small delivery charge covers as many items as you wish to order.**

You can order by telephone during normal working hours - just giving your order and credit card details. Or, you can arrange delivery when you order in-store.

See the back of the catalogue for your nearest Argos Superstore and telephone number.

As an extension to our Superstore Delivery service, we also offer Free Delivery and installation on all large screen televisions (20 inch and over) and VCRs from any Argos Superstore. See page 586 for details.

Installation is to an existing electrical socket and adjacent aerial point. This offer applies within a 20 mile radius of any Superstore (mainland only).

You can order at your nearest Superstore or by telephone, ask for our Superstore Delivery Service.

Upholstered furniture selection centre

To ensure that the item you order is exactly what you want, please see our upholstered Furniture Selection Centre in your local Argos store for fabric samples used in the manufacture of our furniture and garden furniture.

Save £££'s at Argos with Premier Points

Many Argos customers are already collecting Premier Points and using them to save £££'s at Argos.

REDEEM

- ANY POINTS
- ANY ITEM
- ANY STORE

- You can collect Premier Points when you buy petrol or diesel fuel from Mobil Service Stations, and when you stay at any Friendly Group Hotel.
- Points can be redeemed at any Argos store. A full card is worth £5 but there is no need to wait, you can redeem any value of points at anytime.
- Simply present your Collecting Card(s) to the cashier when making a purchase of one or more items from the Argos catalogue*. You can add to your Points value with any other method of payment accepted at Argos stores.

For full terms and conditions pick up a leaflet at any Argos store, participating Mobil Service Station, or Friendly Hotel and start saving today. See page 418 for more information.

* Excludes any telephone or mail order services.

Extended guarantees

To reinforce the Argos policy of selling high quality products, we also offer 3 and 5 year Extended Guarantees on a range of electrical and household items from microwave ovens and televisions to midi systems and cameras.

We also offer free first year accidental damage cover. See page 592 for details.

books_to_bytes

Committed to quality and safety

We want you, our Customer, to have total confidence that every item you purchase from Argos is SAFE, RELIABLE and of the highest QUALITY.

We have therefore, developed a large Quality Control team, fully dedicated to fulfilling such requirements, and have many products tested at independent laboratories.

All our goods, especially nursery and toy products, are subject to strict safety regulations and we take every care to ensure that all our products are safe.

The lion mark is a symbol of toy safety and all Argos toys are tested for compliance with exactly the same approved safety standard.

The "CE" mark, which appears on all Argos toys, is part of a campaign by the EEC to improve safety standards across Europe.

All our upholstered furniture conforms to match and cigarette ignition tests.

Many electrical products now come with prefitted plugs.

Look for the fitted plug symbol.

PLEASE NOTE:

- Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.
- Please check the in-store catalogues before ordering.
- Under exceptional circumstances, we may have to make adjustments to our prices shown in the catalogue, which include VAT at 17.5%.
- All items are subject to availability.

The following guarantees do not affect you statutory rights

The Argos promise

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 14 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recorded music or videos, and fresh flowers.

After sales care

Making sure that you are happy with your purchases both when you buy them, and after you have taken them home, is very important to us.

- **If a product develops a fault, simply return it within 30 days of purchase and we will offer you an exchange or a full refund.**
- **We will provide a free-of-charge repair facility, normally within 14 days, on products which develop a fault and are returned to a store more than 30 days after purchase but within 12 months.**
- **Any product which develops a fault and has a manufacturer's guarantee beyond 12 months will be repaired free-of-charge for the duration of that guarantee.**

Many electrical appliances can also be serviced in your home, please ask in-store for details.

Argos supports the guidelines for guarantees set by the British Retail Consortium.

A GUIDE TO gardening

The choice of lawnmowers is becoming more and more complex as manufacturers develop and refine cutting technology. Below we have outlined some key factors which you should consider before you purchase your equipment.

Petrol

The key benefit of a petrol powered mower is the freedom it gives you - you are not constrained by proximity to power points. A petrol engine generally provides greater power than an electric motor and will be more suitable for large gardens.

Electric

Electric mowers are lighter to use, and start at lower prices. Power output is measured in watts and as with petrol engines, the larger the motor the bigger the power output.

There are two basic machines by which mowers cut - Rotary and Cylinder. Rotary blade mowers come in two types - wheeled and hover.

Rotary Cut

Wheeled rotary blade machines are available in a range of sizes suitable for most gardens. Most collect the grass, and can cut close to the edge of the lawn. Some have rollers to adjust the lawn as it is being cut.

All hover mowers are electric, easy and flexible to use. They operate by literally hovering just above the ground as they cut. There are 3 types of hover mowers, rotary which simply cut the grass, vacs which cut the grass and collect it and vacs which have the blade moving rapidly back and forth.

These products match your garden edges - lawns, hedge outlines, small branches etc. into a smaller size, making yard compost to be produced much more quickly.

Flymo:
[illegible]

Qualcast:
0449 612183

[illegible]:
0845 838402

Cylinder Cut

This is the traditional English way of striping your lawn. Variable height blades positioned at the front of the mower give a close neat finish. All our cylinder mowers collect the grass.

Grass Trimmers

cut grass around the areas inaccessible with a lawnmower. In close to walls, around trees etc. They work by having a length of nylon line spinning at speed, which cuts the grass.

Hedge Trimmers

are purpose built to keep your hedge looking perfect they work by way of "scissor" action with

GARDENING SAFETY TIPS

In addition with [illegible] we have developed some key safety tips you should follow in the garden.

- ⚠ Always follow the manufacturer's instructions very carefully
- ⚠ Always fit a residual current device (RCD) to the electric system. This disconnects the electric circuit if there is a fault (order Cat. No. [illegible] or [illegible])
- ⚠ Never use an electric mower in the wet and do not attempt to lift the mower while the blade is running
- ⚠ Always wear safety goggles - particularly as rough ground (order Argos DIY Safety Kit [illegible])

A GUIDE TO keep fit

How to shape at Argos

Our range of equipment, which is one of the best on the High Street, will enable you to exercise when it suits you, and in your own home, so that you can fit your exercise into your own lifestyle.

Whether you're looking for light exercise or for something more "serious", at Argos we know how to take care of it.
We have equipment to develop strength and stamina for men and women of all ages for beginners and the experts.

There is a variety of keep fit equipment available at Argos which generally helps us build up your strength.

Weights and Benches

are the simplest way to increase your strength. With weights you can use either a barbell or dumbbell but depending on the type of exercise you want to do. If you use a bench to compare back with a set of weights it will allow you to develop your own training programme.

Multigyms

are the most comprehensive fitness and body building machines for developing your muscles. They are fully adjustable so that you can progressively increase and decrease the weights and resistance as shown. Our multigyms will suit everyone, whatever your age, sex or level of ability.

If you are looking to build up your stamina through exercise then have a look at our range of Exercise Bikes, Rowing Machines and Treadmills.

Exercise Bikes

help us build up your aerobic capacity and are particularly good at helping us tone up the muscles in your buttocks, legs, thighs and legs.
The latest dual action cycles have adjustable pivoting handlebars and these enable you to pedal and move exercising the upper and lower body at the same time.

Rowing Machines

are the simple lean machines for all round exercise by strengthening your legs and exercising your upper body.

Treadmills

are similar to jogging and walking and are perceived as one of the most intensive work-out machines.

Now we've given you some key tips on keep fit equipment, have a look through the catalogue to see our full range and let Argos take care of it.

SAFETY TIPS

Before you start however we recommend two key safety tips.

Always consult your Doctor before starting a new exercise programme which will involve a weight increase or exercise compared to what you are normally used to.

Never let children near any equipment which is not an various objects can be caused by moving chairs, wheels and spokes.

A GUIDE TO beds

At Argos we offer a comprehensive range of beds which provide a high standard of quality and comfort at affordable prices. When choosing your bed the combination of mattress and bed play an important part.

Open Coil Springs

Rows of tempered springs are linked together with helical wires to spread your weight evenly across the mattress.

Headboards
There are available on page 174

The firmness and support of the mattress is further complemented by the type of base.

Platform Top

With no springs, which add greater support to the mattress.

After delivery, keep the bed undressed for a few hours to allow the mattress to air thoroughly. Do not roll or bend the mattress. Turn the mattress occasionally from end-to-end and side-to-side.

Every bed complies with the British Standard BS7177 for resistance to ignition of mattresses, divans and bed bases.

Airspring

Manufactured under a quality system approved by BSI EN ISO 9001. Beds with individually tempered springs and spring units. These units are covered with a unique bonded natural coir fibre insulation pad called "Fibrex" which virtually eliminates spring feel, softer upholstery layers are then added to increase overall comfort. A deep quilted base maintains a constant high level of comfort as the bed sleeping area.

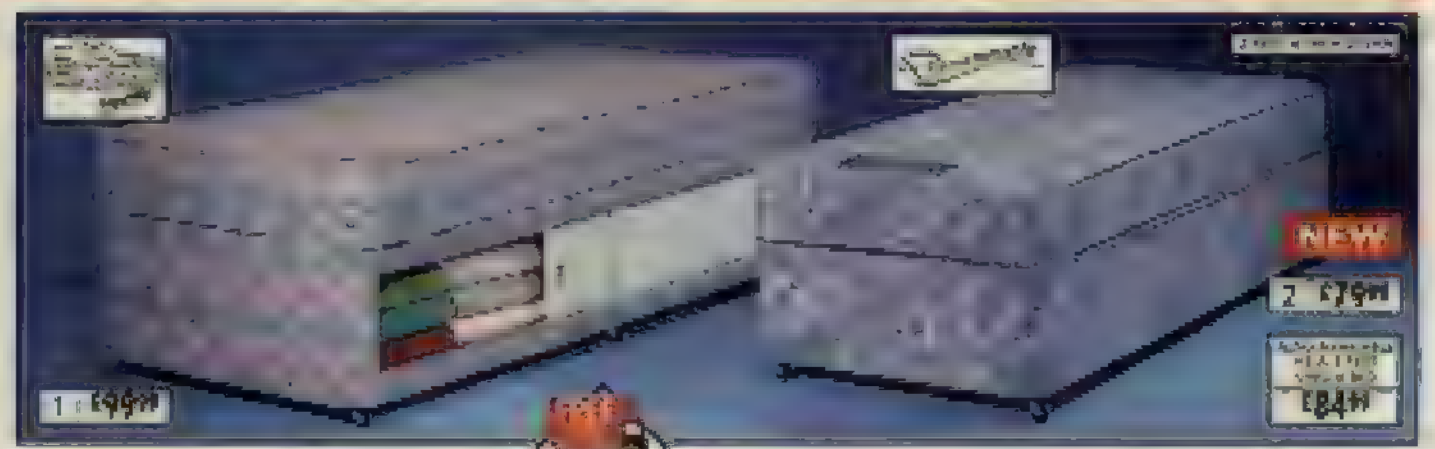

Mattress types are either deep cushion quilted or encapsulated box spring(s) balanced layers of upholstery fillings, combined with heavy gauge double tempered wire(s) spring system to provide firm but comfortable support.

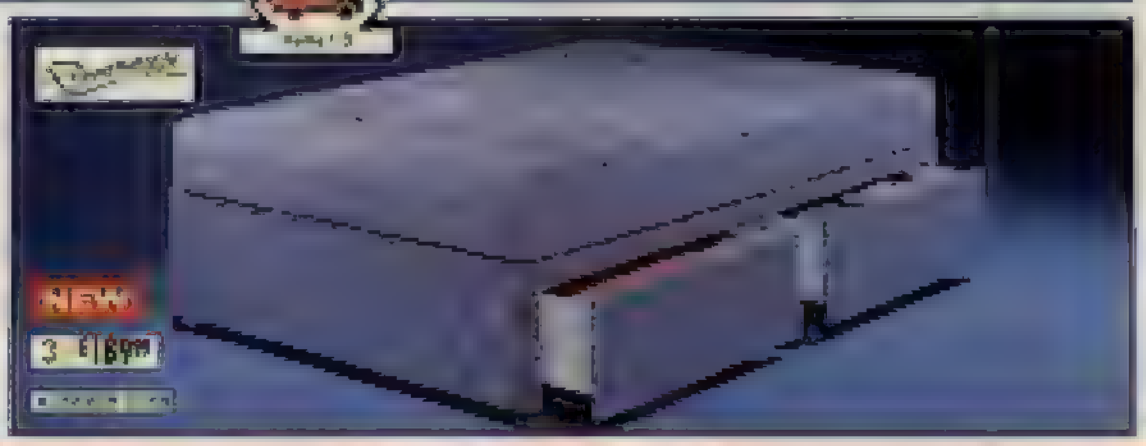

Traditional coil springs form the base of the mattress. Natural layers of upholstered materials are matched to a "breathing" natural fibre insulator. The natural cotton cover, made from a durable printed fabric, is placed on top to complete the mattress and base unit.

Dorlux

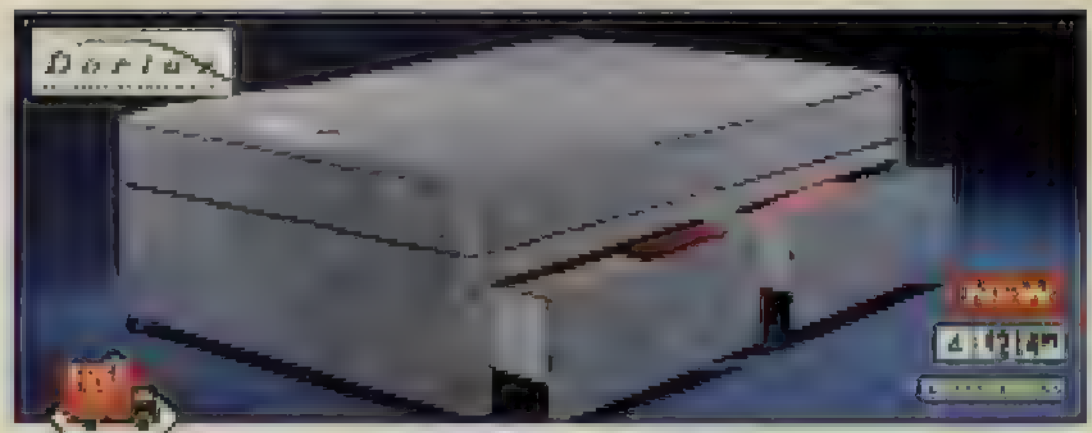

Manufacturer's accredited with BS EN ISO 9001 quality management standard.
Beds with a premium quality spring unit made in high tensile heavy gauge steel in Dorlux's own spring production plant. Each spring unit is upholstered in layers of natural and man-made fibre fillings, ensuring the correct level of support and exceptional comfort.

FOR A RANGE OF DUVETS & COVERS, SEE PAGE 220

books_to_bytes

SAFETY

Complies with the strength requirement EN 1725 for mattresses for children of maximum 70 kg, 154 lbs.

Filling materials and covering fabrics must fulfil the requirements for flammability in EN 597-1 and match symbol of the Fire Furniture and Furnishings (Safety) Regulations.

POWER SHOWERS

7. TRITON T200RE 8KW ELECTRONIC SHOWER. Flush fitting control panel is placed in shower area, while "powerpack" is put out of sight under bath or anywhere up to 3.5 metre length away. Fully stabilised (by an in-built stabiliser) to maintain water temperature down to 20 psi water pressure. Must be plumbed to cold water mains. With showerhead, hose and riser rail. B.E.A.B. approved. Connect to 35 amp. **Please see footnote.**

S Only available in Superstores

Cat. No. 830/6184 **£209.99**

8. SHOWERFORCE MIRAGE POWER SHOWER. Giving up to twenty times the pressure of conventional gravity showers - and twice the flow - the Showerforce Mirage offers your family a whole range of shower experiences. A unique electronic flow control lets you set the flow and pressure, while a twist action showerhead gives you the choice of 3 shower patterns, from gentle to invigorating. The unit uses the water from both the cold water system and the hot water tank, and gives you infinitely variable yet precise temperature control via a sophisticated mixer valve. Pushfit connections, requiring no specialised equipment, and full installation instructions come with a comprehensive kit of showerhead, rail, hose and soap dish. **If you have any queries about installation please ring the service department on 0536 400177.**

Cat. No. 830/8388 **£129.99**

9. SUPAJET 101 POWER SHOWER. For a really invigorating shower the Supajet 101 is the answer. Its safe low voltage pump boosts the water pressure wherever you are, to give you sparkling performance at minimal running costs. It is simple to install, taking water from your existing hot and cold tanks and can be fitted in a cubicle or over a bath. **Should you like some help planning your installation please contact the Customer Service Department on 051 426 6551.**

S Only available in Superstores

Cat. No. 830/8780 **£109.00**

10. TRITON Y.650 POWER SHOWER. Latest high pressure system. Three times more water power than ordinary showers. Soft and hard spray plus invigorating pulsing feature. Requires plumbing into hot and cold water tanks. Complete with pressure pump (which must be permanently connected to the electricity supply), showerhead, flexible hose, riser rail and fitting instructions. Connects to 240V ac mains. **Please note this item will not heat water.**

S Only available in Superstores

Cat. No. 830/8797 **£199.00**

REPAIR SERVICE SEE PAGE 6

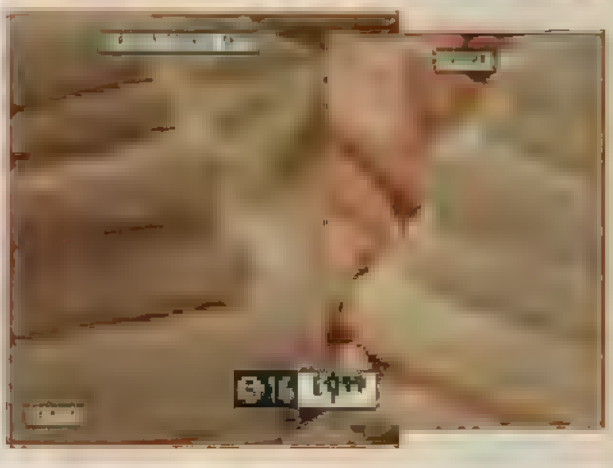

SHOWERS FROM ONLY £49.50

Fills through spout or lid

LIME SCALE

Many people suffer from dry, itchy skin, hair loss, weak bones, water leaving a powdery layer on your clothes

and lime scale furred-up kettles. Lime scale damages appliances, gritty powder in your beverages, totally removes all the benefits of your hot drink...

The Philips Filterline kettle is designed to prevent limescale particles being poured into your drink, and the beverage ensuring that you enjoy your drink to the full. So that's clear!

3 pint capacity

Water level indicator

Special safety features:
- Auto switch off
- Bimetal boil dry protection
- Locking lid
- Non slip rubber feet
- Two cord outlet positions, cord storage and adjustable cord length
- Fitted plug

Neon on/off indicator

2.2kW element for quick boil

Lift off base for easy filling and pouring

Removable, washable, long-life filter, prevents lime scale being poured into your drink

A GUIDE TO microwave ovens

As the range of microwave ovens and their features continues to grow it is easy to see why they are so popular. To help you choose, we have explained a little about microwave ovens and their benefits.

- Microwave ovens can be used for most types of cooking, for defrosting, and for reheating pre-prepared food.
- The main benefit is the speed with which they can cook, for example, an average size jacket potato will take around 7 minutes. This also makes them cheaper to cook with, and more energy efficient, than conventional ovens.
- Food cooked in a microwave oven retains nutrients and juicy since the microwaves destroy very few of the vitamins contained inside.

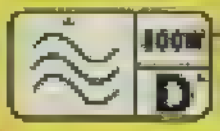

Microwave energy vibrates the water molecules on the surface of the food at a rate of 2cm, at a rate of approximately 2½ billion times per second. The resulting friction produces a large and rapid build up of heat.

The centre of the food is cooked by 'conductivity' as the heat from the outside passes the inside of the food to heat. This is why the centre of the food takes longer to cook and why standing time and stirring are so important.

All our microwave ovens conform to both British and International Electrotechnical Commission standards of safety. They are also approved by our own Quality Control Department.

Most new microwave ovens will now display a label which relates to the new heating instructions on small food packs (for example ready meals meals for 1 or 2 people).

This is an example of the new label :-

Power output:

800W 650W 750W 600W

Heating category for small packs

A B C D E

By matching up the information on the food pack with that on the oven, you will be able to calculate more accurately the heating time required.

For further information please call the Independent Food Safety Advisory Centre on 0800 282867.

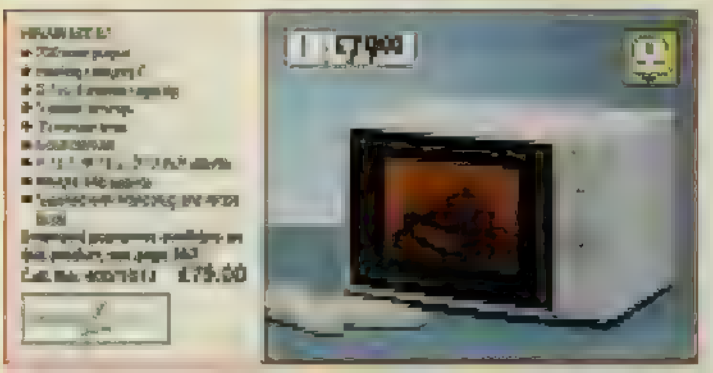

If your oven does not have a new heating category label, continue to use the power output (wattage) as a reference for calculating heating times.

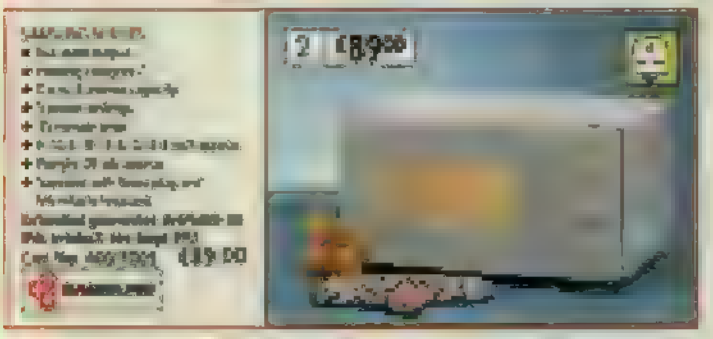

* Explanation by permission of M.A.F.F. from "A Guide to the new Microwave Labels".

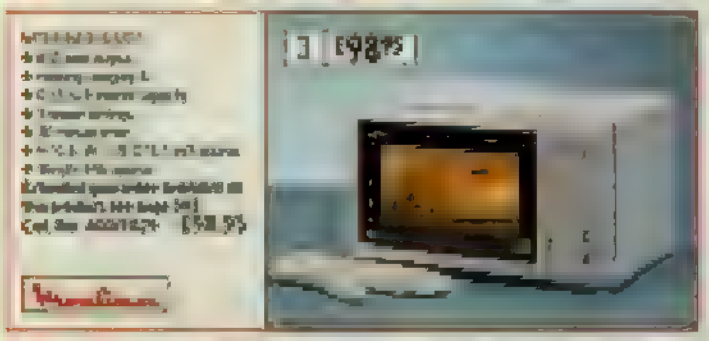

- Allow sufficient standing time after cooking for heat to pass to the centre of the food.
- If possible, stir or rearrange food halfway through cooking to ensure even cooking.
- Reheating of food must be carried out at a temperature higher than 70° for at least 2 minutes.
- Always follow the microwave instructions, and any cooking instructions on the food.
- Always use microwave safe cookware and tableware, products marked for this symbol are safe to use with your microwave oven.

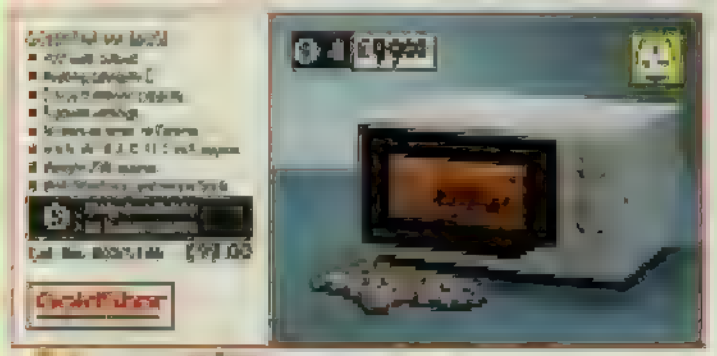

Please remember that metal containers and utensils cannot be used in microwave ovens.

If you have any queries about your microwave oven please call the appropriate helpline during office hours.

A GUIDE TO microwave features

Before you buy your microwave oven you should check all the types and amount of cooking that you will be doing. Our features guide below will help you to decide which functions would be most useful.

Size/Capacity

The interior capacity of a microwave oven is measured in cubic feet. This can be used as an indication of the amount of food which can be cooked/defrosted/reheated. Our microwaves cubic range from 0.65 cu ft. which would cater for smaller quantities up to 1.83 cu ft.

Controls

All our ovens are controlled by either a manual dial or, for more precise timing and programming, by touch control. All have timers, automatically switching off the cooking cycle once cooking is finished.

Output Power/Wattage

The higher the wattage, the more powerful the microwave oven so the faster it will be able to cook.

Turntables

All of our microwave ovens have rotating turntables to ensure that food is cooked evenly. Some have special 'boomerang' turntables which always return to the original starting position when cooking is finished - which is useful for removing handled pots from the oven.

All turntables are removable for easy cleaning.

Sequence Cooking

Some auto cook centre models allow you to programme the oven to cook at different power levels for different lengths of time, in sequence - enabling you to defrost, cook and keep food warm until you are ready to eat, automatically.

Programmable Memories

Some ovens have a memory facility which enables you to store your most used sequence of defrosting, cooking or reheating.

Delay Start/Timer

This allows you to delay the start of your cooking while you are out, so that your meal is ready when you come home.

Auto Weight Defrost

Simply key in the weight and type of frozen food and it will be automatically defrosted for you.

Grills

Some microwave ovens have grills which will brown and crispen your food, giving it the same appearance as conventionally cooked food.

Halogen grills provide instant heat and are faster and cleaner than standard microwave grills.

All our microwaves have a 1-year manufacturer's guarantee, however for added peace of mind you can also take out an Argos 3 or 5 year Extended Guarantee. For a small extra payment, you can insure yourself against any potential future repair costs for your microwave.
See page 591 for details.

1 Year Cover		5 Year Cover	
Cat No.	Price	Cat No.	Price
[illegible]	[illegible]	[illegible]	[illegible]

Free Accidental Damage Cover

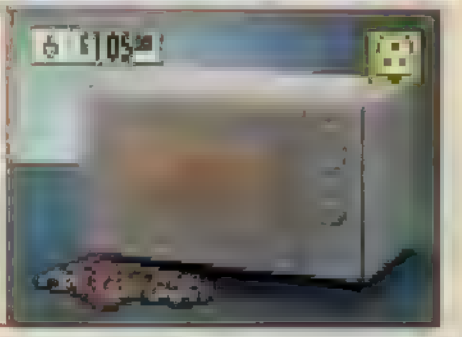

See page 4, or ask in-store for details.

(This above guarantee does not affect your statutory rights.)

With an Argos Personal Account you can buy your new microwave oven now and spread the cost to suit your budget.
See page 3 or ask in-store for details.

For your safety and convenience, products showing this symbol are supplied with a 3 pin plug.

A GUIDE TO combination ovens

Combination ovens combine the versatility of a microwave, grill and convection oven all in one.

You can use a combination oven as a microwave, grill, convection oven, or any combination of these. This gives you the speed and efficiency of a microwave, with the advantages of an ordinary convection oven - which brings out the flavour, browns and crispens your food. Most foods can be cooked in combination mode, but combination ovens are particularly good for roast meat and poultry, cakes, vegetables and baked desserts.

If you have any queries about your combination oven please call the appropriate helpline during office hours.

A GUIDE TO child safety

At Argos we sell a wide range of safety products which can help give you that extra reassurance and peace of mind. Within this guide we have set out some key points for you to follow in the home and also very importantly in the car. However there can be no substitute for common sense and close supervision.

There are many essential items which can help you make your home safe for baby. A selection of which you will find in this catalogue. Here are some key points to follow which we hope deserve up to a congratulations wish.

- At Argos, the Royal Society for Prevention of Accidents
- Fit a safety gate at the top and bottom of the stairs and keep doors and landings clear of toys.
- Keep in touch with your child around the home by using a baby monitor.
- Use a fireguard securely fixed to the wall wherever you have a gas, electric or open fire.
- Make sure the safety of the cot is securely fixed when your child moves out into a normal environment.

When travelling by car there are certain points you need to remember each time you travel to make sure the drive is safe as well as comfortable for your child.

- When choosing your car seat check it is correct for the age and weight of your child.
- Before fitting the seat make sure you read the manufacturer's leaflet carefully to ensure full protection, as your child's safety depends on correct installation.

- Always check the car seat harness each time you travel to make sure your child is secure and also comfortable.

You can choose from a wide range of car seats which fit most car models on the following pages. However our safety equipment does not, of course, guarantee safety, careful driving is always required. Some car seats may require fixing instructions - check with your local dealer prior to fitting.

Finally, as your toddler begins to develop, there are a whole range of toys to buy for them. Again, by following some key points you can make sure playtime is safe as well as being great fun.

- Always refer to the manufacturer's leaflet prior to use and retain for future reference.
- Make sure the toy is right for the child's age and ability - check the age recommendations before you buy.
- Keep older children's toys out of reach of young children and babies.

We have tried to provide you with a range of safety tips and show how safety equipment at Argos. Now simply look through the catalogue and you hope we can help you to look after your child both indoors and outdoors.

SAFETY

Many materials and coverings labelled to meet the requirements for resistance to ignition and match ignition as the 1988 Furniture and Furnishings (Fire) (Safety) Regulations.

A GUIDE TO cameras

Most cameras are fitted with additional features to give greater accuracy when taking photographs, so we have explained some of the key features.

Flash

A built-in flash unit fitted directly on the camera becomes active when there is insufficient light. On some cameras a 'red-eye' feature is available to prevent the subject's pupils from showing red.

Canon

Helping you to take better pictures

Memories. That's what photography is about. And there is no surer way to keep your memories alive than with a Canon camera. Whether you want to capture special family moments, or record exciting holiday events, a fully-automatic Canon camera will help you to shoot sharp, colourful pictures.

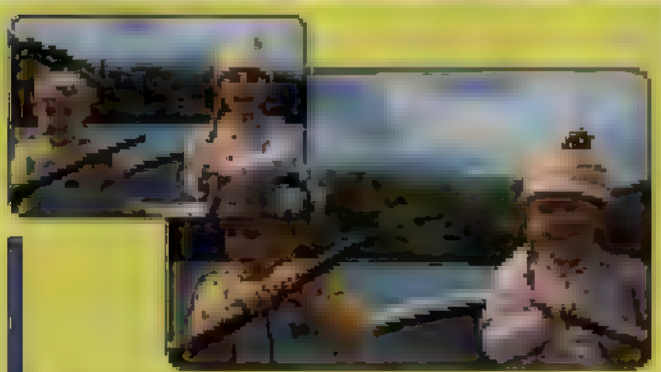

CLOSE ENCOUNTERS OF THE CANON KIND
Move in close. That's the advice photo books give to camera users. It makes your subject bigger, adding impact to the images. But with some Canon cameras, you don't need to move. Pressing a button changes or zooms the lens, giving you a bigger image from the same viewpoint. Look for "twin-lens" or "zoom-lens" models.

SAY GOODBYE TO "RED-EYE"
Red-eyes are fun - in other people's pictures. The monster-looking effect is caused by the camera's built-in flash. But most Canon cameras now have a special red-eye reduction mode which reduces the risk of red-eye spoiling your pictures. So if your children still look like little monsters, you won't be able to blame the camera!

SEE PAGES 520-527 FOR THE ARGOS RANGE OF CANON CAMERAS

FOCUSING WITH A MIND OF ITS OWN
Autofocusing gives you sharp images - sometimes. Most autofocusing systems read from the centre of the image. Too bad if your subject is at the side. But many Canon cameras have "intelligent focusing". This will find the subject and focus on it, giving you sharp pictures every time. Another helpful feature from Canon.

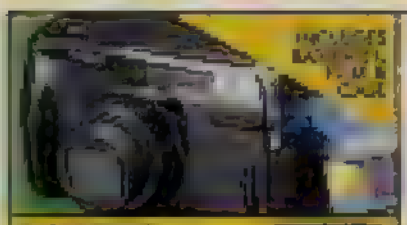

THE NEW GENERATION OF COMPACT CAMERAS
Delight their latest slick and light weight Canon compact cameras are packed with features. They all offer automatic film loading and film advance, plus built-in flash. And they are all made to the high standard you expect from Canon - a company with over fifty years' experience of camera design.

EVERYTHING YOU NEED
The Canon Sureshot Mega Zoom 105 camera has everything you need to produce pictures you will treasure - wide-range zoom lens, 9-point intelligent focusing, red-eye reduction mode. And it is easy for everyone to use.

A GUIDE TO camcorders

If you want more than just a photograph, a camcorder allows you to capture the action in sound and vision.
Camcorders give high quality home video recordings and have a wide range of features to give you greater flexibility and improved photography.
To help you choose, our guide below explains some of the technical terms and features.

Tape Formats

There are 3 camcorder formats, using different types of tape. Mini Digital is a small cassette which gives up to 90 minutes recording, or 3 hours with long play.
Tapes are played back by plugging the camcorder directly into your TV or video recorder using the leads supplied.
Recordings can be edited onto VHS tape on a video recorder. VHS-C is a compact tape which can be played in your VHS video recorder, using the special adaptor supplied with all of our VHS-C camcorders.
They give up to 45 minutes of recording, which can be extended to 90 minutes with a long play facility.
VHS-C tapes can also be played back by connecting the camcorder directly into a TV or video recorder 21 pin SCART socket. If you do not have a video recorder or 21 pin socket TV, you will need to buy an RF lead and adaptor - available from Argos Mail Order Services (telephone 0181-992 3224) or ask assistant for details).

Power Zoom

A power zoom gives a smooth controlled action for close up shots. The greater the zoom, the greater the magnification.

Full Range Auto Focus

This ensures that the subject stays in focus, no matter how close or far away.

Intelligent Auto Iris

This auto focus facility works through the lens to give sharper clarity and a better colour balance.

Twin Lens

Twin lens camcorders have both a wide angle and zoom lens.

Macro

A macro facility allows clear and focused close-up recordings.

Picture in Picture

A twin lens allows you to combine wide angle and close-up views of the same action, by a small inset within the main picture.

Fader

A fader allows you to smoothly fade in and out of different shots.

Shutter Speed

A variable shutter speed allows slower speeds in low light conditions, while a high speed shutter gives clear shots for high speed action.

Iris Elimination

The lower the iris minimum illumination, the lower the light conditions in which the camcorder can still effectively record.

Flying Erase Head

When recording over old scenes this gives a cleaner recording from old to new recordings.

Title Memory

You can superimpose titles or dates onto your recordings as a permanent reminder.

Age Insert

By entering your child's birth date, you can have an on-screen display of their age on future recordings.

Edit Camera Search

This lets you review personal recordings through the camcorder for editing or to find the correct position to resume recording.

Infra Red Remote Control

This allows you to operate the playback features of your camcorder from the comfort of your armchair.

Long Play/Record

This feature allows you to record and playback for twice the normal time, ie 3 hours on a 90 minute tape.

Insert Edit

This allows you to insert a new recording in between existing scenes.

TELEPHONE HELPLINES

For any queries about your camcorder please ring the appropriate helpline during office hours.

A GUIDE TO typewriters & word processors

If you are looking up your business, from an office or your home, you will be looking for the latest office equipment. At Argos we now sell a wide range of business equipment, and all at affordable prices. Having the right machines can help to equip your office, and be efficient, with a lot of necessary information and facilities to understand. To help you with your choice, we have explained some of the features existing in our range of Typewriters and Word Processors.

Typewriters

At Argos we have a comprehensive range of typewriters, from manual to electronic and electronic typewriters.

Features Guide

Correction Memory
Enables you to correct up to two lines of current text, so if an error is made you can simply recreate and delete it.

Text Memory
Is a facility which allows you to store information/text of varying amounts. This can range from 2 pages of text with a 4K memory to 4 pages of text with a 12K memory capacity.

LCD
(Liquid Crystal Display) allows you to review and edit text easily on screen before printing.

Justification
Allows you to produce documents with the right hand margin locked so that sentences are equally proportioned regardless of number of words, to give a professional appearance.

Spellcheck
A facility which runs to spelling mistakes and enables you to produce documents free from errors.

Print Speed
This is measured in CPS (characters per second).

Typing Pitch
The pitch designation represents the number of characters that can be typed per inch.

Decimal Tabulation
Automatically positions the carriage for alignment of numbers at the decimal point.

Word Processors

Word Processors offer all the benefits of an advanced typewriter but with the additional features of larger displays and a bigger memory capacity. The memory of all our Word Processors can also be expanded by the use of an external 3½ inch floppy disk.

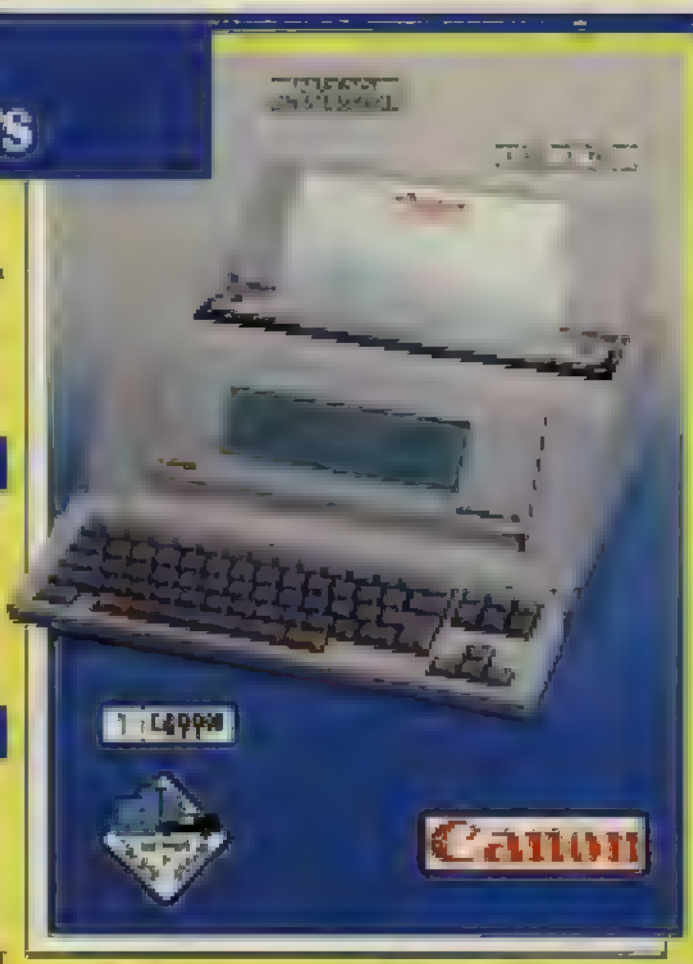

Features Guide

Block Copy/Move/Delete
Provides you with the ability to copy, move or delete a block of text, allowing you to edit simply and quickly.

Search and Replace
Enables editing of a specific word or phrase throughout a piece of text in one single operation.

Address Mail Merge
Allows you to merge a list of names and addresses with a letter enabling you to produce personalised correspondence easily.

"WYSIWYG"
"WHAT YOU SEE IS WHAT YOU GET". Allows you to see exactly what will print out on paper.

Autosheet
A sheet is inserted into the facility provides alignment and automatically replaces them.

MS Dos File Format Compatability
Allows storage of information in DOS format to enable data exchange with PC's.

We have a wide range of office equipment for your office or your home, so let Argos take care of it.

Extended Guarantee

For added peace of mind why not take out an Argos 2 or 3 year Extended Guarantee.

See page 912 for further details.

A GUIDE TO computers and printers

Computers

If you are looking for a personal computer (PC) to use in the home for you, your family or a small business, Argos now offer a selection of PC's to suit your needs. PC's can be an excellent source of education and entertainment and are becoming easier to use. Memory capacity dictates by machine and is an important factor in your choice.

Memory

The size of a computer's memory is judged by how many bytes of data it can hold, normally measured in megabytes (1 MB=1 million bytes). The speed at which a PC processes information is determined by its level of megahertz (MHz). The higher the MHz, the faster the computer processing.

The Random Access Memory

(RAM) is the working memory or desk where in operation information held in the RAM is lost when the computer is switched off, therefore data needs to be stored on hard or floppy disks.

A Hard Disk Drive

has a high capacity to store information and is housed in the body of the Central Processing Unit.

Floppy Disks

enable you to store information externally from the computer on small 3½ inch disks. The amount of information that can be stored depends on the density of the disks.

Argos sell a range of floppy disks which are compatible with all our Computers and Word Processors - see page 543 for more details.

Printers

The most common printer used with word processors and PC's is the Dot Matrix. Recently, ink jet printers have become more popular.

The Dot Matrix

This printer simply creates an image on the paper using a row of 9, or in the more expensive models 24 pins. The pins strike rapidly onto a ribbon, onto the paper. A 24-pin printer is able to create a much smoother outline for letters and graphics since it uses more "dots per inch".

Ink Bubble Jet Printers

This works in a similar way to the Dot Matrix printer, the main difference is in the ink jet. An ink jet is activated by a pump, or in the case of a Bubble Jet printer, by heat creating more pressure in the ink tube. This forces the ink onto the paper creating the image with near laser quality print. One of the key benefits is that they print more quietly.

DPI (Dots Per Inch)

This refers to the density of the print, the higher the DPI, the higher the density of the print.

Variable Print Speed

Most printers have variable print speeds, measured in CPS (characters per second). The faster the speed, however, the less definition is given by the print.

Selection Feed Facility

enables you to handle single pages through the printer whereas the Pull Feed Tractor facility handles a continuous supply of paper.

Buffer Memory

enables you to store information being transmitted from the PC ready for printing.

Fonts

These are different typestyles which allow various presentations of your work.

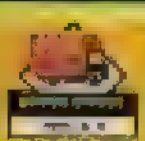

books_to_bytes

To make life even easier we offer a FREE delivery service on the computers shown here which will be delivered direct to your door, normally within 7 days. To help give all your way we will also install the computer so it's ready for you to use - it can be that simple. See page 3 for full details of our delivery service.

FOR A RANGE OF OFFICE

books_to_bytes

A GUIDE TO fax machines

If you run a small business, a fax machine is an ideal way to keep in touch. A fax machine needs to be plugged into a dual style phone socket and the modem. Some fax machines have an internal fax switch and can detect the incoming call to either the fax or telephone. All approximate, others also allow connection to an answering machine.

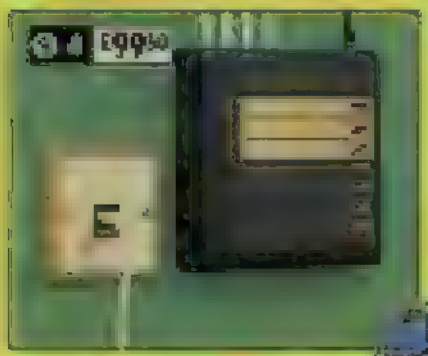

However, if you have occasional fax needs, this means that the use of the fax with an answering machine and telephone going all the time. To help you with your choice, we have identified some key features.

Half Tone Separation
produces shades of grey and not just black and white, giving greater clarity for photographs or brochures.

Super Fine Disc Mode
allows for a better reproduction of detailed documents/drawings with the facility for fine print.

Auto Document Feed
lets you set up a number of pages for automatic transmission or copying in sequence.

Activity Report
provides a summary of information transmitted and received.

A GUIDE TO telephones

Argos offers a wide range of telephones and to help you choose, we have explained the features available.
All Argos phones need a plug-in type socket. If you do not have this type of socket, contact British Telecom and request their conversion.

Memories

You can store your frequently used or important numbers, and recall them at the touch of a button, or two.

Last Number Re-dial

The telephone can automatically re-dial the last number you dialled, which is very useful when a number is engaged.

Mute (Secret) Button

This allows you to speak to other people in the room without being overheard by your telephone caller.

On Hook Dialling/ Hands Free Speech

"On Hook Dialling" enables you to dial without lifting the receiver. A speaker allows you to hear when the phone is answered, when you simply pick up the handset to speak. "Hands Free Speech" allows you to speak and listen with the receiver still in place.

Volume Control

This allows you to adjust the volume of the telephone ring.

Ring Equivalent Number (REN)

The number of the telephones you can connect to a line is determined by the REN of each telephone. The maximum total REN for a telephone line is 4.

PABX

PABX compatible telephones can be used with most PBX, exchange or switchboard systems. Please see the manufacturer's instructions, or use the helplines for further details.

Cordless Phones

Cordless phones allow you to receive or make calls around the home and even in the garden. You can page the handset (or vice versa) from the base unit, and some also have an intercom between the base unit and the handset.

The base unit must be connected to a mains supply as well as an approved telephone socket. The handset recharges whilst it is on the base unit. A battery back-up enables the telephone to be used during a power cut.

The quality of reception is unlikely to be as clear as with a conventional telephone as they are susceptible to interference from other cordless phones and radio transmissions, especially over long distances and obstructions (walls or doors). Cordless phones operate on 4 different channels - as marked on the base. If you experience interference from another cordless phone, you need to exchange the complete telephone unit for one with a different channel number. Most channel telephones have 3 channel options so you can switch the handset and base unit to the alternative channel.

Caller Display/Digital Phone Answerers - is now available on many newer cordless phones offering enhanced reception by filtering out background noise. Cordless phones are also available as combinations which include an answering machine or speakerphone on the base.

Aerial Tuning maximises the signal on a given channel.

Network Services

If you have a dual signalling (Pulse/Tone) or 'Touch Tone' telephone, you will be able to use the new BT "Network Services" including call diversion, 3-way calling, and reminder calls. These additional services are available from BT for a quarterly rental charge, please contact your local BT office for further information.

Mercury

You can now use the "Mercury" network from your home via a British Telecom line. For a small annual fee you will receive your own PIN code giving you access to cheaper long distance and international calls*. A "Mercury" button will allow one-touch dialling into the Mercury system. Other "Mercury compatible" telephones enable programming of the sequence into a normal memory.
Please phone the Mercury Helpline for further details.

3 and 5 year Extended Guarantees available, see page 542.

*Touch Tone is a BT registered Trade Mark.
*Correct at time of going to press.

A GUIDE TO answering machines

As answering machines will record messages, and many machines a handset for use as a normal telephone. To install your machine you need a BT plug-in telephone socket. A separate answering machine may also need a telephone socket doubler to connect alongside your telephone. This is indicated in the text where necessary.

Cassette Tapes

Most machines use a micro, rather than a standard size, cassette. Twin cassette units have a separate cassette for the outgoing message and incoming calls.

Digital Outgoing Message

Your outgoing message is recorded onto a digital voice chip, avoiding the need for the tape to shuttle between the outgoing and incoming messages, thus cutting down on the waiting time of your caller.

Digital Voice Prompt

A digital voice will guide you through the various operations, and give you information such as the number of calls received.

Memo Facility

You can leave a message on your machine for someone else to access on their return.

Call Screening

This allows you to listen whilst the answering machine takes your call, and choose whether or not to answer personally.

Answer Only Option

The answering machine can answer a call without taking a message. This is useful if you are away for several days.

Day/Time Stamp

This records the exact time and day of all incoming messages.

Two Way Conversation Recording

This allows you to record a telephone conversation, and can be useful when listening to directions or instructions.

Branch Theme Beep

Your answering machine will stop and reset automatically when you interrupt a call on another extension.

Remote Message Retrieval

You can check your calls even while you are out. Using a 'Touch Tone' telephone (which produces a variety of tones as you dial) or a remote-control device, you can instruct accurate your answering machine to play back any recorded messages. Some machines can also execute other remote functions such as changing the outgoing message. 'Touch Tone' is a BT registered Trade Mark.

Call Count

This will display how many calls have been recorded usually on an LCD panel or by a flashing neon light.

3 and 5 year Extended Guarantees available, see page 549.

A GUIDE TO televisions

If you are looking for a large screen or portable television, Argos has a wide range for you to choose from with a variety of features.

Features Guide

FST
This stands for "flatter square tube", which gives you improved definition, a wider viewing angle and less light reflection.

Teletext/Fastext
This gives you up to date information on a wide range of subjects such as travel, news, sports and television programming. Teletext also gives subtitles on selected television programmes.
Fastext is an updated system to give you quicker access to your chosen page of information.

SCART Socket
SCART leads can be used to connect your television to your VCR, audio system or satellite receiver dish. They can also be used to connect your Camcorder to the TV to play back recordings.

Sleep & Wake-up Timers
Particularly useful if you were to watch televisions in the bedroom, you can programme the timer so before the television set off automatically, after you have fallen asleep. Or wake up to your favourite station as an alarm clock.

NICAM
NICAM is a high quality digital audio signal which is transmitted simultaneously with television pictures, giving a similar sound quality to compact discs.
To receive the stereo NICAM signal a television or video must incorporate a NICAM receiver which picks up the signal through your existing TV aerial.

A NICAM video recording must then be replayed through a NICAM or Stereo TV to maintain the stereo sound.

On Screen Display
A visual display on the TV screen will show which channel you have turned to, or any adjustments to the volume or colour.

Argos Personal Account

Spread the cost of a new television with an Argos Personal Account. See page 3 for details.

Guarantees

All our televisions have a one year manufacturer's guarantee, but for added peace of mind you can buy an Argos 2 or 3 year Extended Guarantee. We also offer Free Accidental Damage Cover. See page 592 for details.

HELPLINES
For any queries about your TV please ring the appropriate telephone number during normal office hours.

PROTECT YOUR TV AND VIDEO WITH OUR EXTENDED GUARANTEES, SEE PAGE 592

books_to_bytes

A GUIDE TO video recorders

If you never want to miss your favourite TV programmes, a video cassette recorder (VCR) could be the answer. All our VCR's allow you to record one programme even when watching another on a different channel. We also sell video players, for watching pre-recorded videos. These cannot be used for recording.

Programming

VCR's are programmed to record by using a remote control handset. Many have a small LCD panel on the handset or an on-screen display showing the details entered.

Event Timer

You can programme many VCR's to record a number of events over a period of weeks.

Twin Speed

A twin speed (or "long play") facility allows the VCR to record and then play back at half the usual operating speed. The picture remains sharp, but the recording time of a tape is effectively doubled. This gives 6 hours of recording on a 3 hour tape. However the quality of the recording may not be quite as good as when recorded at normal speed.

All our VCR's have a 1 year manufacturer's guarantee, but for added peace of mind you can also take out an Argos 3 or 5 year Extended Guarantee. See page 581 for details. We also offer FREE ACCIDENTAL DAMAGE COVER. See page 4 for details.

Spread the cost of a new VCR. See page 3 for details.

A GUIDE TO audio features

The advances in audio technology means that many sophisticated features are available on both personal and portable equipment, to suit all our needs and most systems.

Digital Tuners

Phase Lock Loop (PLL) digital tuners seek out stations by searching the whole waveband automatically for the next strongest signal.

Preset Buttons

You can select your favourite stations to be recorded in the memory, and then recall them at a touch of a button.

Dolby 'B' & 'C'

Dolby is a noise reduction facility that reduces the hiss when tapes are played, especially on "quiet" music. Dolby 'C' is the advanced version of Dolby 'B', giving even clearer sound reproduction.

Relay Play

Available with twin tape decks, the second tape automatically plays over when tape one has finished.

Auto Reverse

When your tape has finished, the cassette player automatically plays the other side.

High Speed Dubbing

On twin tape decks, this allows faster tape copying usually at twice normal speed.

Graphic Equalisers

A graphic equaliser allows you to "shape" the tone of the music being played by increasing or falling particular sounds. The greater the number of bands, the more precise the equaliser.

Spectrum Analyser

This provides a visual display of the sound level in the form of "dancing lights", enabling you to make fine adjustments to sound and tone levels.

Compact Disc

Compact discs, or CD's provide the most accurate sound reproduction available. On CD midi systems, a search button allows you to select which tracks you want to hear. A memory facility allows you to programme a sequence of tracks in any order.

Turntables

Belt driven decks ensure a constant rotational speed. Fully automatic decks place the stylus on the record for you, and return it after the record ends. Semi automatic decks only return the stylus, you have to place it on the record.

Speakers

When each speaker is a series of either 2 or 3 drivers (known as "2 way" and "3 way" speakers). 3 way speakers usually give a better quality of sound. Active speakers for use with personal CD's and stereos have their own power source to further amplify the sound.

Music Output

The higher the number of watts the greater the capacity of the amplifier and the louder the sound will be. 3 x 20 watts music power means that there are 3 speakers with a maximum music output of 20 watts per speaker. Manufacturers generally express the potential maximum volume in one of three terms:

As a comparison:
1w RMS = 2w PEAK = 4w PMPO

+ The recording and playback of certain material may only be possible by permission. Please refer to the Copyright Design and Patents Act 1988 and the Performers Protection Acts 1958-72.

+ Dolby is a TRADEMARK of Dolby Laboratories Licensing Corporation.

GREAT VALUE ON

extended guarantees

The following guarantees do not affect your statutory rights.

At Argos, our aim is to offer you high quality, reliable appliances - all of which carry a manufacturer's guarantee of at least 12 months.
However, for added reassurance we also offer 1 and 2 year Extended Guarantees at low, low prices. So now, at an affordable price, you can insure against possible repair costs once the manufacturer's guarantee has expired.
Underwritten by Cornhill Insurance PLC, our Extended Guarantees cover both parts and labour costs of faults arising due to faulty workmanship or materials used in manufacture. A 2 year guarantee extends the manufacturer's guarantee (either 1 or 2 years) to a total of 3 years. A 3 year guarantee extends cover to a total of 5 years, after the date of purchase. Our full range of Extended Guarantees is shown in the table below.

How to buy your Extended Guarantee

Buying an extended guarantee is simple, and can be done at the same time as buying any other Argos product.

1. Fill in the appropriate catalogue number on a selection form.
2. Take the form to a cashier.
3. After paying, you will be directed to the collection counter where a member of staff will take all the necessary details to complete your insurance cover.
4. You will then be given a copy of the agreement to keep. This will also tell you what to do if you need to make a claim.

Please note that you must purchase extended guarantee cover within 10 days of purchasing the item to be covered. If you have any queries about your insurance cover, please use the Cornhill Insurance helpline [illegible] during normal business hours. Unfortunately we cannot accept faxes for commercial use. Please ask in-store for full terms and conditions.

FREE ACCIDENTAL DAMAGE COVER

We also offer FREE FIRST YEAR ACCIDENTAL DAMAGE COVER, even if you decide not to buy an extended guarantee.

You can apply for free accidental damage cover on all of the items shown below, except camcorders. Simply pick up a leaflet in-store.

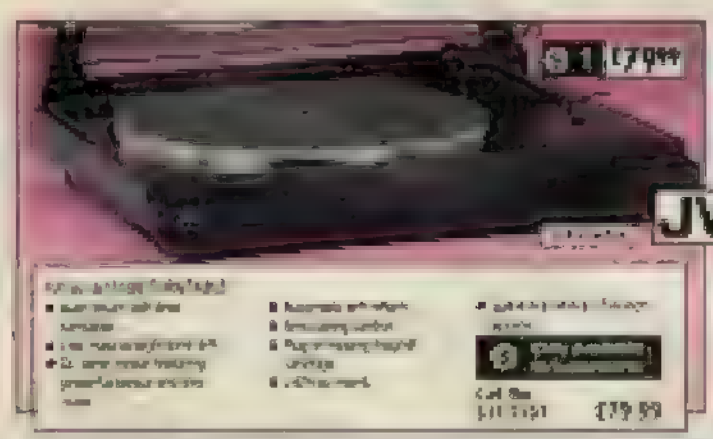

If you do buy an extended guarantee, then we will automatically include the free accidental damage cover.

A GUIDE TO car audio

We sell a range of car stereos, from simple radio cassette to CD players. Many of the functions are similar to those on other hi-fi equipment. Additional features include:

Fader
The 4-speaker systems you can adjust the sound balance between the front and back speakers.

Auto Seek Tuning
The radio automatically seeks out the next strongest signal as a wireless.

Radio Data System (RDS)
Designed for radio reception only, RDS displays the station name and reprogram your

a format, and tick automatically when re-reading through different transmitter areas.

Extended Other Network (EON)
If your RDS unit has an operation EON, then when traffic information is broadcast, this can automatically interrupt your listening with travel bulletins.

Stereo units are designed to be easily removed when you leave your car and then re-fitted, simply slot into place for play.

Please note, there are 3 sizes of car radio cassettes. The newer, DIN E, will fit most cars from 1982. DIN D will fit almost every car from 1980 onwards, many require an adaptor plate. Please refer to your vehicle specification manual.

FOR EXPERT ADVICE
For any queries please our audio product call the appropriate telephone during office hours.

FREE HOME DELIVERY ON SELECTED ITEMS. see page 3 for details.

SUPERSTORE DELIVERY SERVICE. see page 3 for details.

FREE DELIVERY AND INSTALLATION ON LARGE SCREEN TELEVISIONS AND VCR's. See page 3 for details.

10% OFF OUR SPECIAL WEEKEND BREAKS.

Take this chance and spend any Friday, Saturday or Sunday night at one of twenty 'premier three star' UK Friendly Hotels (rates from only £30.50 bed and full breakfast per night).

You'll find the hotel staff are friendly by nature as well as by name, the rooms are relaxing and spacious, and all the hotels are handily located (see the map overleaf) so you're never that far away from some of the country's best tourist attractions.

So whether you prefer the Corkscrew at Alton Towers, a glass of fine wine in a friendly bar, or our relaxing leisure facilities, at the end of the day, a Friendly Hotel is the only place to be.

Present this ad. when you settle your bill, and you'll qualify for an instant 10% discount.*

For the Friendly short breaks brochure, directory and tariff, or to make an instant reservation, simply call Jane Parker quoting 'Argos breaks' FREE on:

0800 591910

Collect Argos Premier Points when you stay Friendly.

England: Birmingham, Burnley, Eastbourne, Hull, London, Milton Keynes, Newcastle-Under-Lyme, Northwich, Norwich, Nottingham, South Gosforth, Tyne & Wear, Walsall, Welwyn, Scotland: Ayr, Edinburgh, Falkirk, Glasgow and Perth. ABTA

Friendly HOTELS
